

# Egress Window Well System

Egress Window Wells give you an **easy way out of your home** and **emergency personnel an entry** to rescue you and your loved ones.

- Building Code Approved for Finished Basements
- Safe Emergency Exit
- Easy-to-Open
- Brightens Up Your Basement
- Adds Fresh Air

## Components

### Window

- Swings inward or easily slides out of the way.
- If there is a screen, it can be removed from the inside.

### Window Well + Steps

- Mimics stone, which resembles a natural landscape.
- Includes Built-in steps.

### Polycarbonate Cover

- Keeps well clean from leaves and debris.

### Aluminum Grates

- Provide ventilation for your basement.

## Installation Steps

1.

Prepare the home and cover any personal belongings.

2.

Excavate for the Window Well.

3.

Measure and mark for the window location.

4.

Remove section of the foundation wall.

5.

If needed, a Window Frame is installed.

6.

Finally, the Window Well itself is carefully installed.
